Savvy Online Searches Save Time

Savvy online searches enable us to, for example, save links to favorite sites, make journals of summaries and tips, and document answers to frequently asked questions.

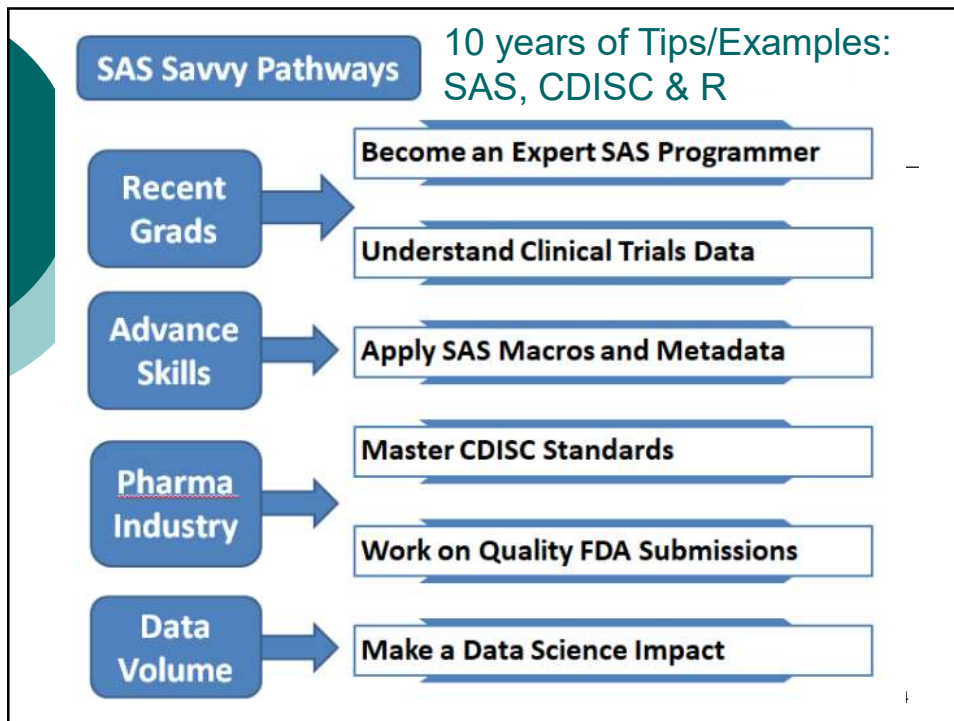

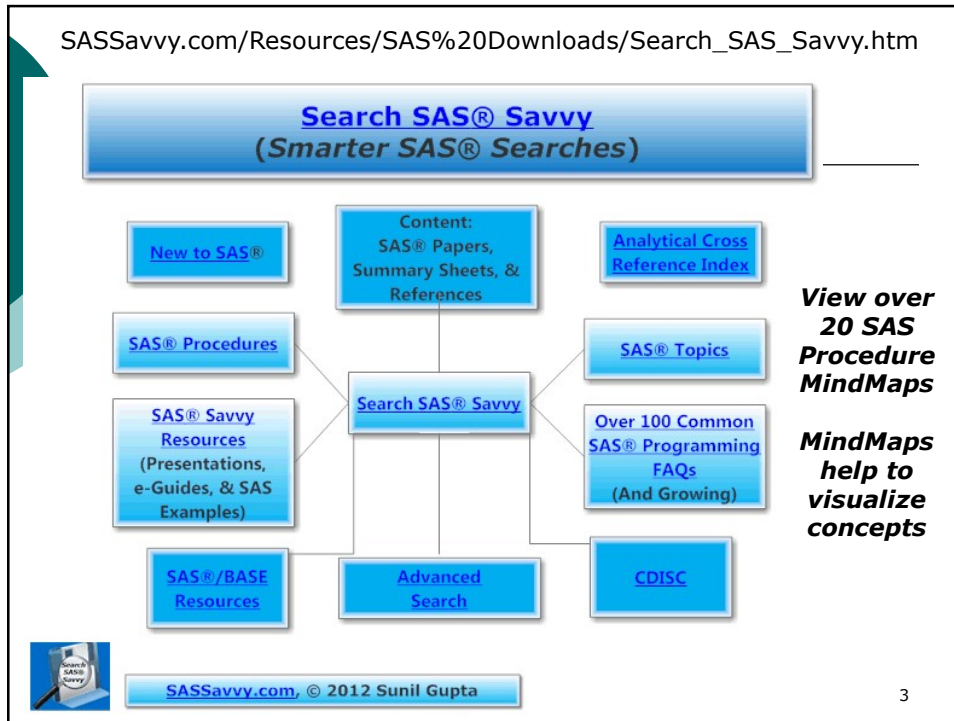

By **Sunil Gupta, Founder, SASSavvy.com** - November 4, 2015

These days, just about everyone conducts online searches to find quick answers to most questions. But the real question is: How to do smarter online searches that can save time and learn from previous searches?

Savvy online searches enable us to, for example, save links to favorite sites, make journals of summaries and tips, and document answers to frequently asked questions. For the last four years, I have used my online platform, SASSavvy.com, to mentor university and remote students as they learn to make savvy online searches. I utilized technology to help standardize and automate the process of building an online knowledge base.

SAS Savvy Open House Videos

<https://www.screencast.com/t/QYmRntZztc>

The screenshot shows the SAS Savvy website interface. A large video player with a play button is centered on the page. The website has a blue header with the 'SAS Savvy' logo and navigation links. A sidebar on the left contains a menu with items like 'Home', 'Training Topics', 'Forums', 'Keyword Index', 'Site Map', 'E-Mail List', 'About', 'Join Us', 'Blinds of a Feather', 'Search', 'SAS Procedures', 'General SAS Procedures', and 'Analytical SAS Procedures'. The main content area features a search bar and several links: 'SAS Procedures', 'SAS Savvy Resources (Presentations, e-Guides, & SAS Examples)', 'Search SAS Savvy', 'SAS Topics', 'Over 100 Common SAS Programming FAQs (And Growing)', and 'Contents SAS Papers, Summary Sheets, & References'. A 'Participant List' window is open on the right side of the browser window.
